Dear Bill:

I am starting to put together my summer work schedule and am wondering about the status of the proposed assassination session for the New Orleans meeting of the Southern Historical Association this November. Recently, I learned that Howard Roffman, one of the finest scholars of the assassination and its investigation, will be starting a law clerkship in the Fifth Federal District (Southern) in the autumn. Possibly he would be available, if you wish, as a commentator or participant. He is author of Presumed Guilty The Warren Commission's Abuse of Lee Harvey Oswald and the forthcoming Understanding the Cold War as well as numerous articles in law journals including one on Freedom of Information Act.

I am eagerly awaiting your answer.

Sincerely yours,

David R. Wrone
